

Maintaining Our Focus

- As our coaches and players focus on winning championships, we as parents and supporters of the program must work to provide the finances, equipment, facilities and support they need to accomplish their goals.
- Thus, the purpose of the Touchdown Club is to do just that... provide everything the players and coaches need to help them reach their goals.
- Many may ask if that is not what we are currently doing. My answer would be that yes, to a small degree we are, but there is so much more that we “can” do. As you look at the top programs in the State, they are recognized by not only their achievements on the field, but also by their facilities, equipment, game day events, parent support, community support and sponsor support. Their entire program top to bottom says “Champions”. That is what we want to create here at Jeffersonville High School.
- It starts with activities to involve our youth and middle school athletes and parents in our program. It continues as we look to improve facilities, increase player support, broaden our base of sponsors, develop new and exciting game day activities, improve communication and increase overall involvement, all in a structure so that everything we do is sustainable year after year.
